Atenea: Autonomous solar lighting furniture

Atenea is the new street furniture with autonomous solar lighting. It has been designed to meet the bank function for public spaces, thanks to its integrated solar panel provides illumination. No installation or wiring so its placement is simple, fast and does not require skilled personnel. It is ideal for promenades, parks, gardens ...

Atenea is able to withstand the elements and the passage of time, and its integrated solar panel is located at the top so it is not visible from the ground considerably reducing the risk of theft.

Atenea: Technical Characteristics.

Power of the Solar:	16.2 + 15%
Battery Capability:	12V/40Ah
Power of the Light:	2W
Color Temperature:	4300K-5500K
