dara INSECT Killer

What is Dara Insect Killer?

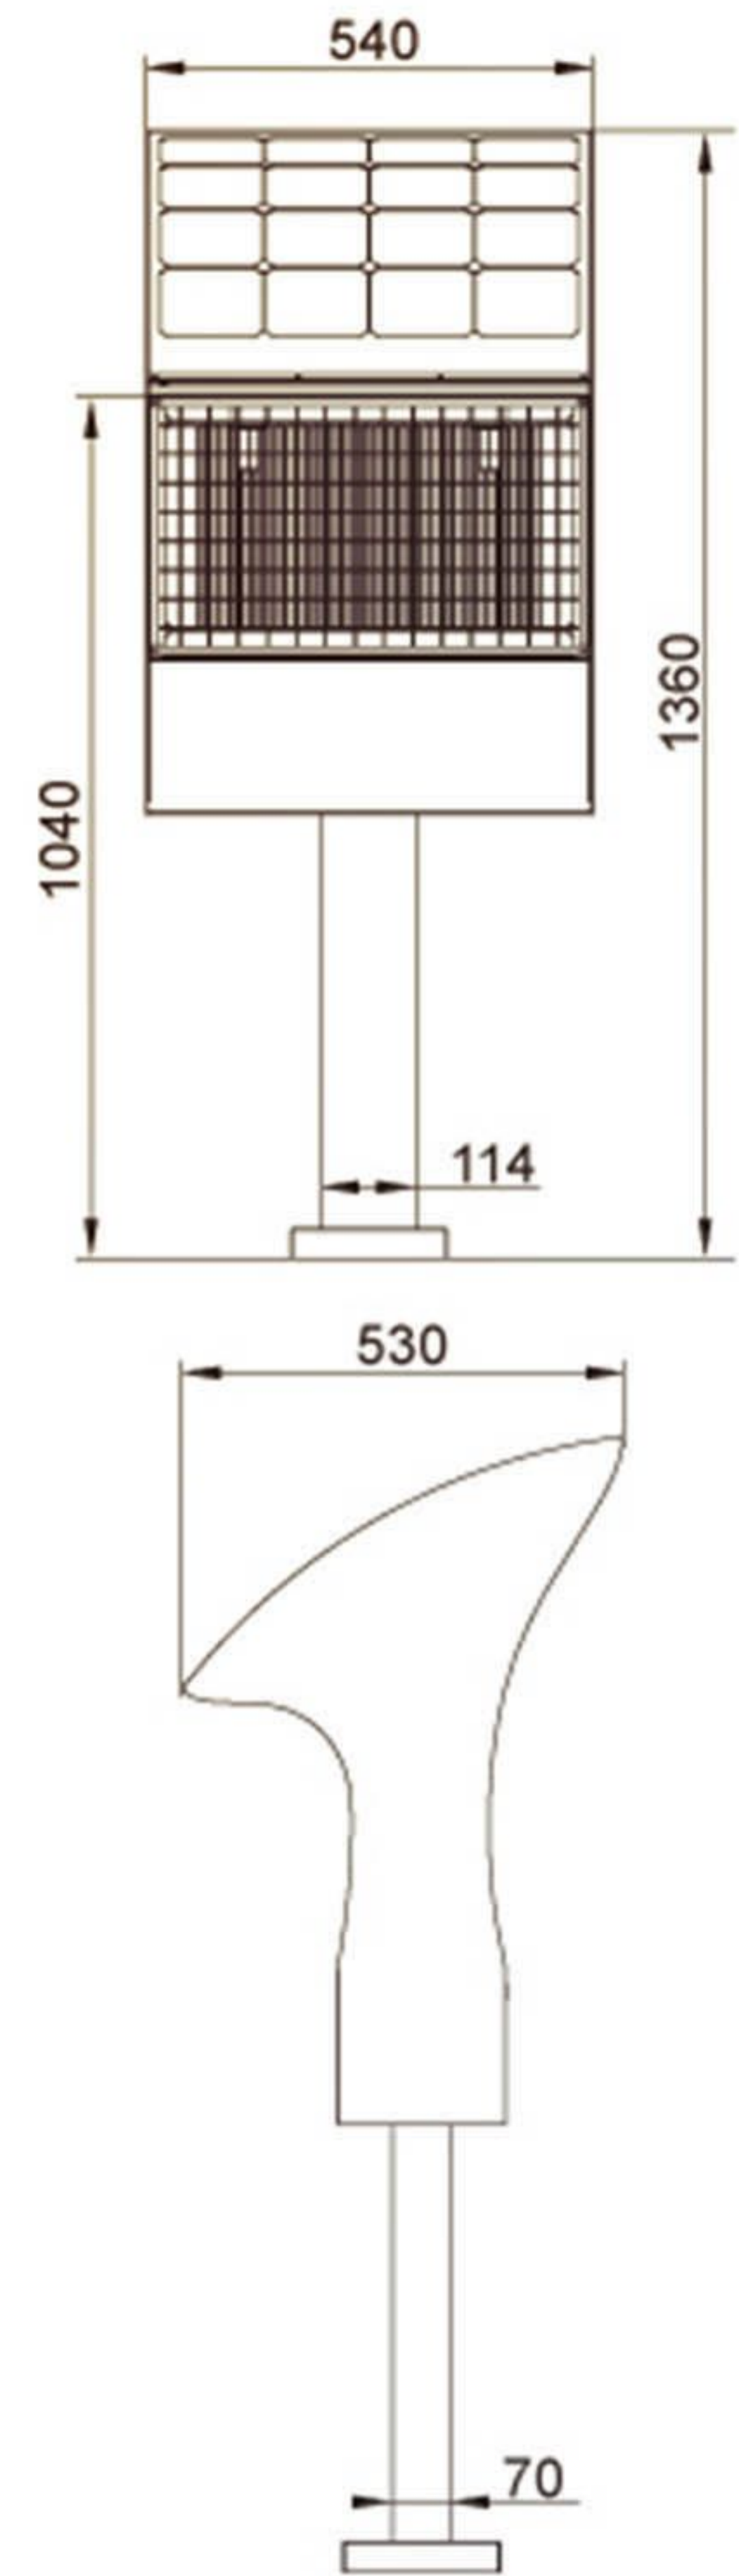

Dara Insect Killer is a solar insect killer machine that it kills mosquitoes, flies, horse-fly etc. The equipment is completely independent and you can situate it anywhere.

It works exclusively with solar light. You can put the insect killer in your garden, fields, and schools or in your agriculture area and farm...(to avoid insects next to the river etc.)

Up to 8 hectares (80.000m²) per machine (very useful, robust and powerful)

Technical features

Solar cell:	48W +- 15%
Battery:	12V / 40Ah
Temperature:	-20 °C / 45°C
Height:	1,36 m
Wind resist:	27 m/s
Working with cloudy days:	3 - 4 days
Power:	≤ 20 W
Output voltage:	DC 12 V 3.000V + - 10%
Output current:	<10 mA
Power of the lamp:	9 W 2(pcs)
Voltage of the lamp:	DC 12V
Lenght of the light wave:	330 mm - 450 mm
Area:	8 hactares
