PORTABLE ECOENERGY

Solar Lighting

Our system was designed for domestic, commercial and residential areas where electric supplies are erratic or non-existent. It was designed to be simple, reliable and effective in these conditions. It is combined with a High Efficiency Solar Panel with Intelligent Charging Controller. We have incorporated a high capacity lithium battery, with hi-bright leds. The integrated controller and battery controls give charging and discharging parameters accurate control at all times. The construction of our system combines simplicity and usage at all times making it an ideal companion to carry in your caravan, boat, tent or when emergency light is required.

Feature:

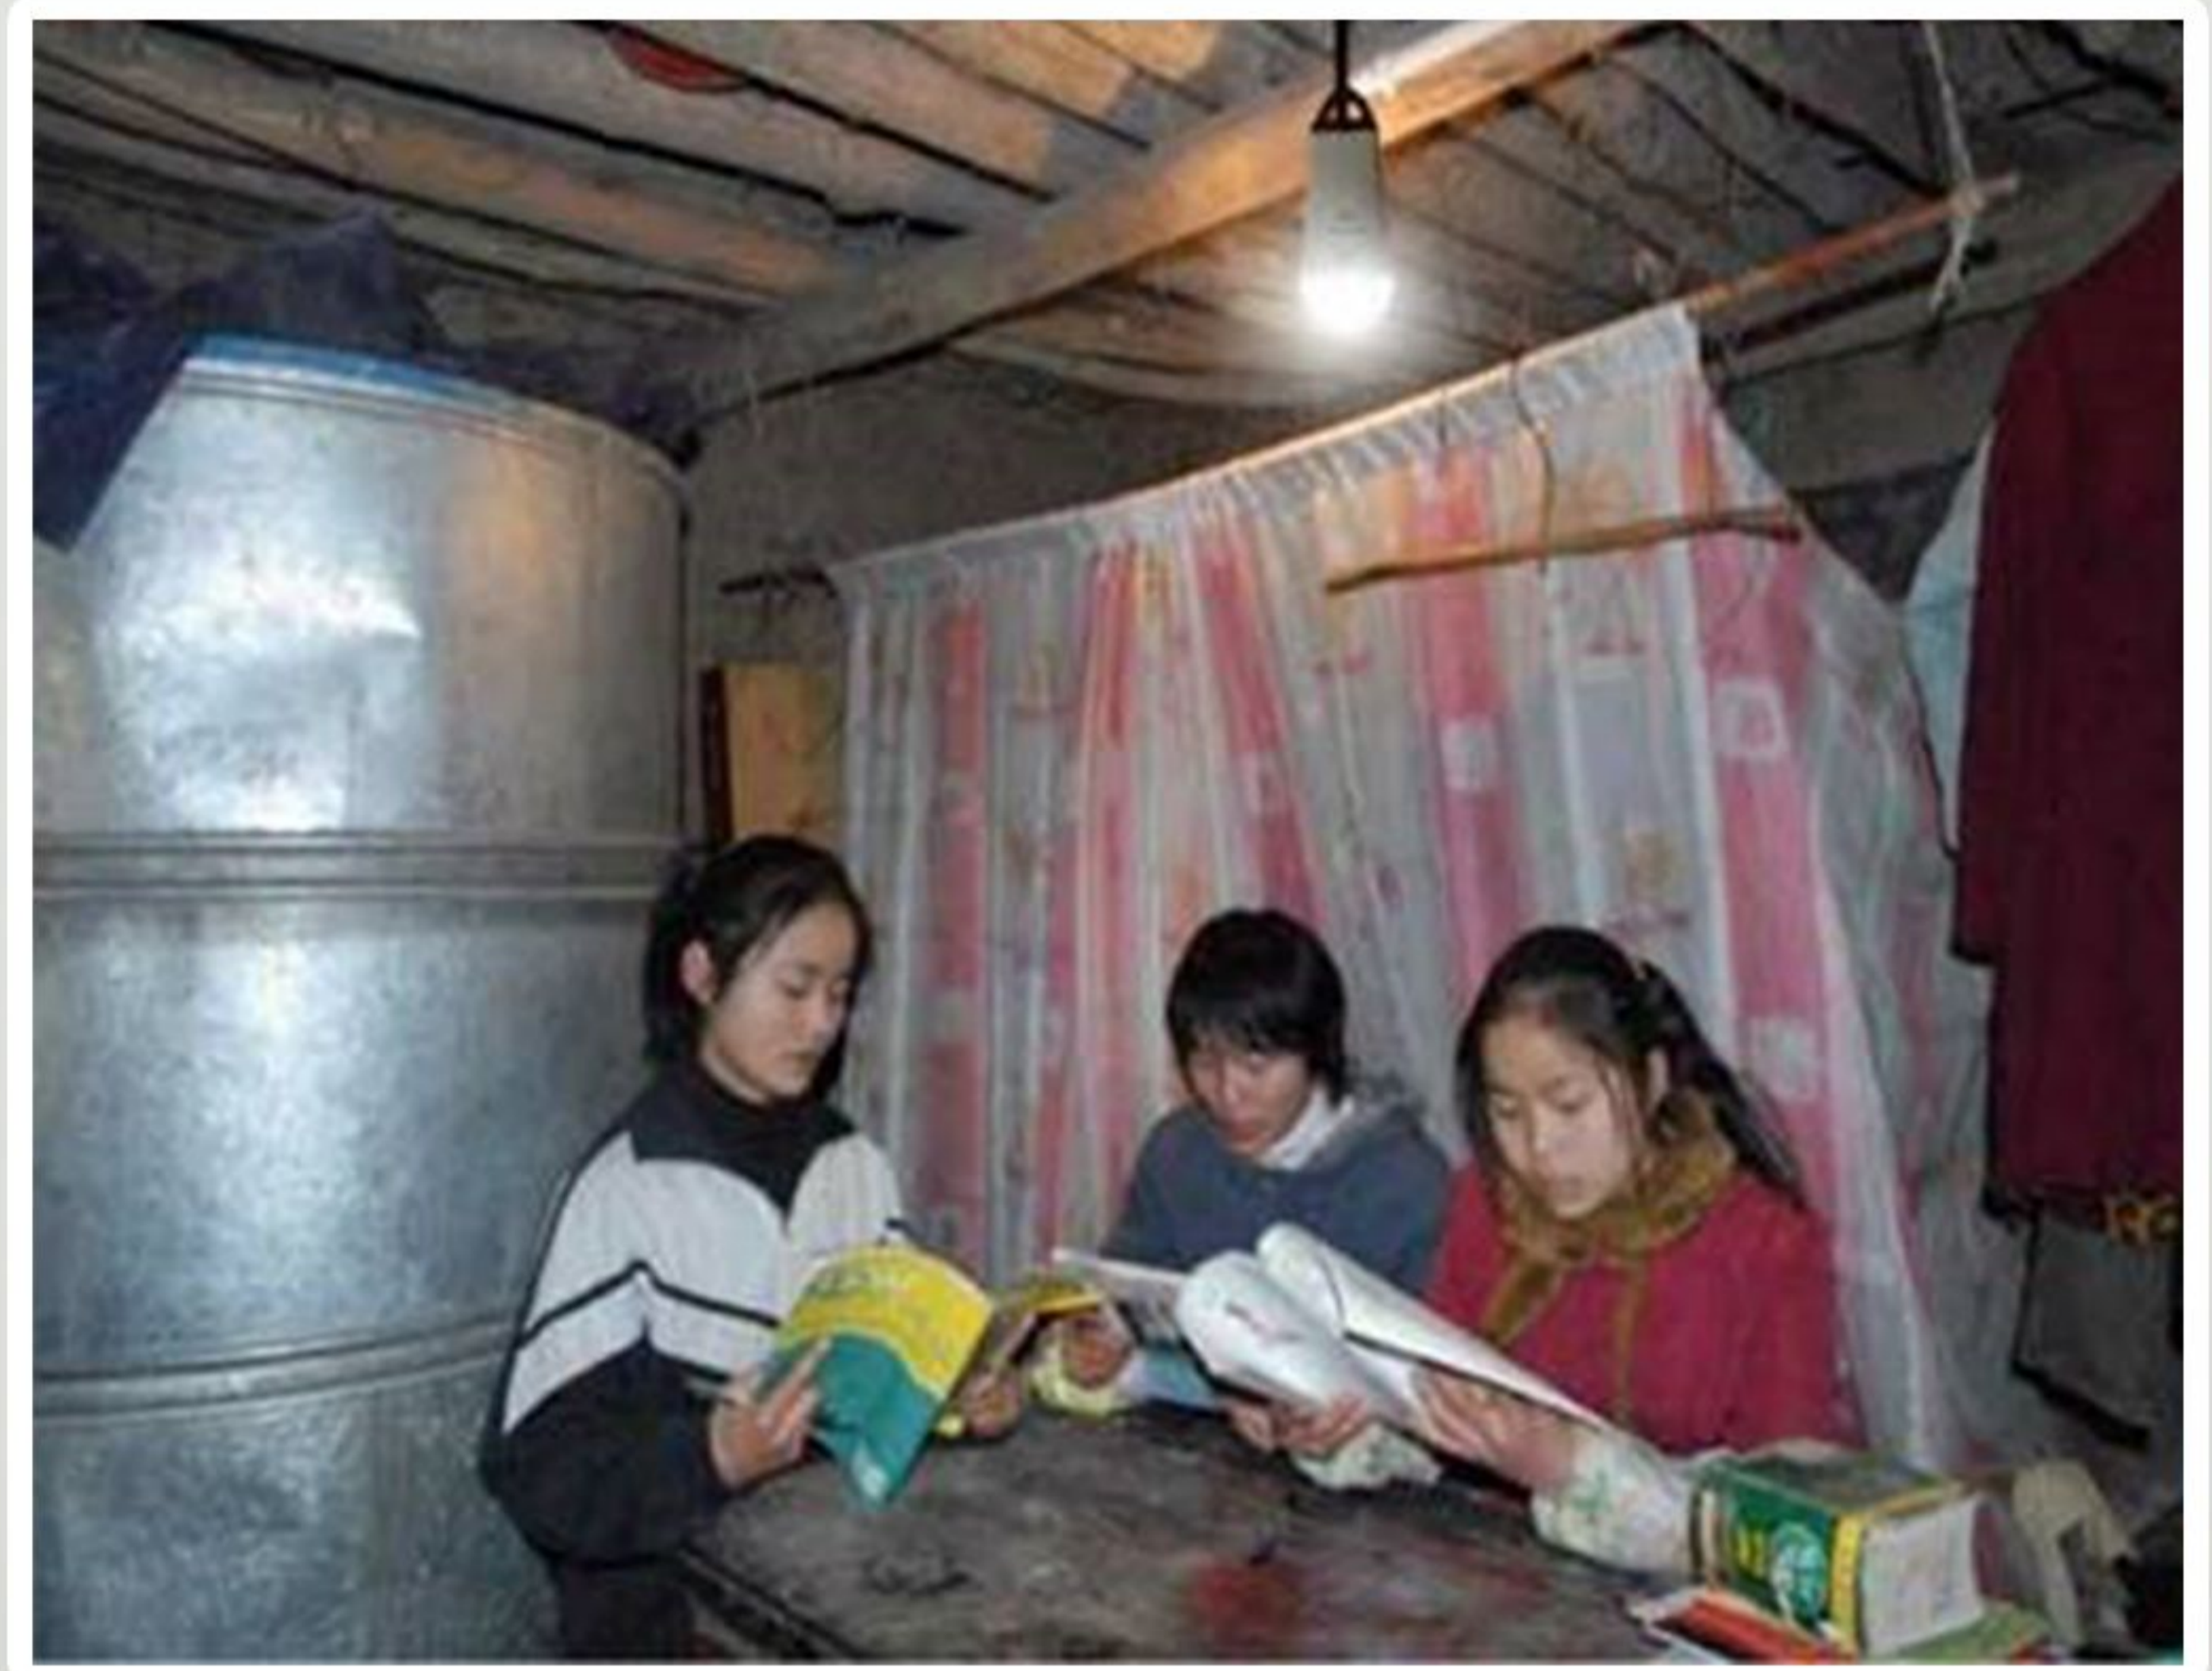

- ✓ Compact and Integrated System
- ✓ Long Lifespan Hi-Output Lithium Battery
- ✓ Overcharging Protection Circuit
- ✓ No wastage of power in Standby Mode.
- ✓ Ease of Installation
- ✓ One Year Warranty

Application

Usage: Household, Bedroom, Living Room, Hallways, etc.

Outdoor: Backyards, Courtyards, Garages, Outdoor Sheds, BBQ Areas Camping, Boating, Caravanning, etc.

Emergency Use: Disaster Relief situation.

OPTIONAL
REMOTE CONTROL

Model:

	POE 1	POE 2
PV Module	4W	8W
Battery	Lithium 4400 mAH	Lithium 8800 mAH
Power of LED	1 pcs of 3W bulbs	1 pcs of 3W bulbs / 2pcs 3 W bulbs
Luminous flux	1W 84lm / 2W 164lm / 3W 240lm	1W 84lm / 2W 164lm / 3W 240lm
Cable	1 pcs 5M	3 pcs 5M
Working time	1W ≥ 15hours / 2W ≥ 8hours / 3W ≥ 6hours	Base on how many LED. 1pc 3 W only ≥ 12 hours
Weight (set)	0.95 Kg	1.6 Kg
Warranty	1 year	1 year
